

## Calgary & District Dental Society 2024/25 Lecture Series

Friday September 27&28, 2024  
Double Tree by Hilton North  
8:30am– 3:00pm

**President**

Dr. Joshua Benjamin

**Past President**

Dr. Kamil Kolosowski

**President Elect**

Dr. Vivienne Allain

**Treasurer**

Dr. Kamil Kolosowski

**Sponsorship**

Dr. Vivienne Allain

**Secretary**

Dr. Shannon Davis

**Registration**

Dr. Tim Kearns

Dr. Hannah Dhaliwal

Dr. Ryan Keyes

**Executive Assistant**

Mitchell Murphy

### Dr. David Clark

## "21st Century Composites: Stop Layering and Start Injection Molding!"

#### Course Description

Do you want to take a big step forward in your aesthetic composite insertion technique restorations?

Most dentists still think of composite as a filling material that should be packed into boxy preps and cured in layers. That is simply the wrong way to use composite. In this fast-moving and entertaining lecture, Dr. Clark will demonstrate the art and science of monolithic injection molded composite dentistry using modern cavity preparations, ultra-thin anatomic clear matrices that can completely wrap the tooth, and heated multi-viscosity resins.

#### Learning Objectives

The 6 keys to world-class contacts 100% of the time in a Class II  
How to injection mold to treat black triangles, peg laterals, fractured teeth and diastemas

How to safely warm composite, and why  
Deep margin management

Ultra glossy stain-proof anterior restorations

DoubleTree Calgary North (Hilton) Limited to 200 total attendees

Members Tickets Available: 175

Staff Tickets Available: 25

### Injection Molding and the Bioclear Technique for Composites

6.5 CE Credits – Hands-On Course – Provided by CRD

Exclusive Pricing for CDDS Members: \$1,095 – \$825\* for CDDS members  
(CDDS members, please get in touch with CRD directly to register. Seats are limited)

Visit the CRD Website to learn more.

Call 1-800-265-3444 ext 1 to register. Please mention that you are a CDDS member for the discount.

### Injection Molding and The Bioclear Technique for Composites

with Dr. David Clark

6.5 CE CREDITS

Lecture & Hands-On Course

SEPTEMBER 28, 2024 – CALGARY, AB

#### EDUCATIONAL OBJECTIVE

In a quest to bring composite dentistry out of the 19th century, Dr. David Clark and the Bioclear Method has redefined the way we think about restorative dentistry by developing modern-day systems and methods for cavity preparations, special matrices, wedges, separators and bonding, restorative and polishing materials and methods. His injection molding technique has created a third modality with Monolithic Restorations.

Direct composites are under appreciated in today's world of implants and computer-assisted ceramics. Yet, composites can sometimes be less invasive and more natural. Esthetic treatments, including diastema closure, black triangle closure, Class II, III and IV composite restorations are just the start of what can be done with the Bioclear Technique.

#### LEARNING OBJECTIVES

- Learn and perform the three steps to achieve rock-solid posterior composite contacts
- How to close a black triangle and create a mirror-like finish and invisible margins
- Receive an updated, hands-on evaluation of modern matrices, wedges and separators
- Learn the injection molding technique using liquified flowable and paste composite resin
- Understand solutions to avoid the most common mistakes that lead to less-than satisfactory results when performing anterior composites
- Discover the benefits of injection molding into special black triangle matrices

**PLEASE NOTE:** If you wear magnification loupes while practicing, we recommend you bring them to this Hands-On Course.

#### WHO SHOULD ATTEND

Any dentist or restorative hygienist interested in learning more about the Bioclear Technique.

6.5 CE CREDITS | AGD SUBJECT CODE: 250

Clinical Research Dental / Clinician's Choice  
Nationally Approved PACE Program  
Provider for FAGD/MAGD credit.  
Approval does not imply acceptance by  
any regulatory authority or AGD endorsement.  
1/1/2023 to 12/31/2026. Provider ID #208086
